Loafer SC24 by Space Copenhagen

Plush to the touch and conducive to conversation, the new Loafer chair SC24 is an elegant yet approachable sibling to the Loafer lounge chair, designed by Space Copenhagen for &Tradition for the SAS Royal Hotel.

As its name suggests, the Loafer chair is for unwinding and reclining. Designed so you'll want to linger longer to enjoy your guests – and every moment in between – the new, fully upholstered dining iteration lets you indulge in any culinary experience in supreme comfort.

“Our vision was to create something intimate yet still open,” say Space Copenhagen founders Signe Bindslev Henriksen and Peter Bundgaard Rützou on the new addition to the Loafer family. “To create a hotel feeling, finessed with details to make it ideal for sitting in at a restaurant or at home.”

Constructed in a stylised semi-circle shape that extends to the floor, the new chair is lighter in both appearance and weight than its predecessor. Slightly narrower and with a higher seat for dining, it has elegantly sloped sides that graduate from the back to comfortably accommodate your arms. The padded seat cushion and backrest provide additional comfort. Available in a range of textiles and colours.

Space Copenhagen is a multi-disciplinary award-winning design studio founded in 2005 by Signe Bindslev Henriksen and Peter Bundgaard Rützou. Graduates of The Royal Danish Academy of Fine Arts, School of Architecture, their scope of projects extends from furniture, design objects and art installations to interiors which draw on an elegant and contemporary mix of natural materials and muted colours.

Established in 2010, &Tradition is a Danish design company that marries tradition with innovation. Our unique portfolio of furniture and lighting spans designs from the 1930s to the present day and includes interior objects by internationally acclaimed designers.
