

## Ettore design Konstantin Grcic

Perfectly in line with Magis's essence, courage and spirit, the a mule has for years been the emblem of Magis for its essence, courage and spirit. In 2016 the mule was named Ettore (Hector), like the Homeric hero and turned out a real mule, its legs firmly on the ground, determined and strong, but also loveable and playful.

This year Ettore is also a key ring, an essential but refined object, made of stainless steel with a special black wash finish, reminding us another time of the mule and also Magis essence.
