

# ABOUT A TABLE 20

DESIGN BY HEE WELLING & HAY

The About A Table shares the general versatility and design language with the rest of the family. The table features the same powder coated frame as many of the chairs in the series, and the organic curves and raised feet convey a similar light expression. The tables are available with round (AAT 20), square (AAT 15) or rectangular (AAT 10) tabletops, with the round and square tabletop resting on a centred frame, while the rectangular version has its legs positioned at both ends and has a cross-bar construction. About A Table is available in two heights and a wide range of dimensions, enabling you to create a unique solution to match your needs.
